

TOTAL CAD / CAM / CAE / PLM
SOLUTION AND SYSTEM INTEGRATION
SERVICE IN VIETNAM

CAD/CAM/CAE INTEGRATION FOR PRODUCT EXCELLENCE

SHAPE THE WORLD WE LIVE IN

CATIA is the World's Leading Solution for Product Design and Experience. It is used by leading organizations in multiple industries to develop the products we see and use in our everyday lives.

SIMULATION FOR PRODUCT, NATURE & LIFE

Powered by the 3DEXPERIENCE Platform, SIMULIA delivers realistic simulation applications that enable users to explore real-world behavior of product, nature and life.

COLLABORATIVE INNOVATION

Powered by the 3DEXPERIENCE platform, enables you to plan your definition of success. With a broad portfolio of technical and business applications, ENOVIA enables stakeholders across the enterprise to contribute to sustainable innovation.

GLOBAL INDUSTRIAL OPERATIONS

Powered by the 3DEXPERIENCE Platform, DELMIA helps global businesses re-imagine their engineering, operations, and planning for manufacturing excellence.

The 3DEXPERIENCE Platform

Enabling Maximum Flexibility and Optimal Total Cost of Ownership

A BUSINESS EXPERIENCE platform. With a single, easy-to-use interface, it powers INDUSTRY SOLUTION EXPERIENCES, based on 3D design, analysis, simulation and intelligence software in a collaborative interactive environment. It is available on premise and in public or private cloud. Integrates all features from Dassault Systèmes applications into a single access gateway, the absolute integration of 11 different application software.

Our achievement: Dassault Systèmes certificated

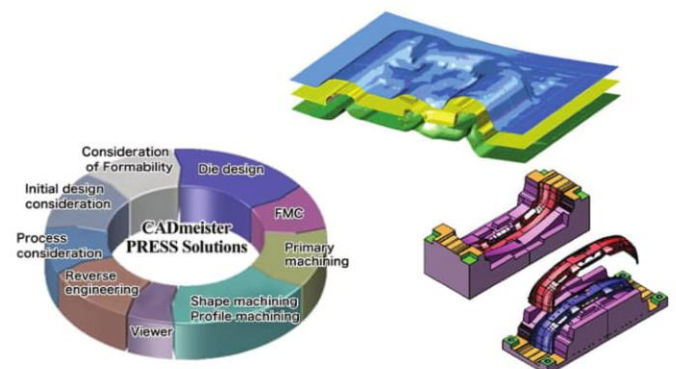

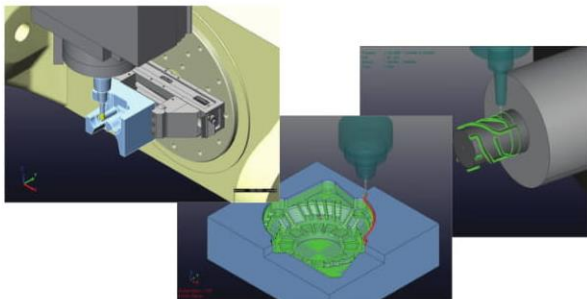

CAD/CAM System for Molds & Dies

For 3D CAM, the reputable CAM-TOOL's CAM strategies for polygon and surface shapes are adopted. High-precision and high-efficient machining can be provided, as users operate the system to match the required products quality.

CADmeister is an integrated 3D CAD/CAM/CAE software which supports Mold & Die design, simulation and manufacturing with its specialized packages.

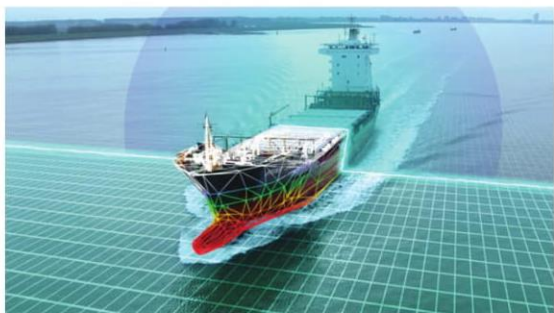

Mastercam delivers CAD/CAM software tools for all types of programming, from the most basic to the extremely complex. 2-axis machining, multi-axis milling and turning, wire EDM, router applications, free-form artistic modeling and cutting, 3D design, drafting, surface and solid modeling – whatever your machining needs, there is a Mastercam product for your budget and application.

SPECIAL CAE & 3D DATA TRANSLATION

SIMULIA offers an advanced simulation product portfolio, for multi-physics, process integration and optimization: Abaqus FEA, fe-safe, Isight, Tosca, Simpack, Simpoe and SIMULIA SLIM.

JMAG is a comprehensive software suite for electromechanical equipment design and development. Powerful simulation and analysis technologies provide a new standard in performance and quality for product design. Capture complex phenomena and gain valuable insights.

Moldex3D is the world leading CAE product for the plastic injection molding industry. With the best-in-class analysis technology, Moldex3D can help you carry out in-depth simulation of the widest range of injection molding processes and to optimize product designs and manufacturability. In addition, its high compatibility and adaptability have provided users with instant connection to mainstream CAD systems, generating a flexible simulation-driven design platform.

CADdoctor is the ultimate desktop application software for 3D data translation, PDQ (Product Data Quality) validation, repair, and transformation. CADdoctor supports highly precise and reliable data translation among multi-CAD as well as strict PDQ validation and automated or guided geometry repair functions.

SYSTEM INTEGRATION

Hardware

Workstation, Server, Laptop, Desktop
(Lenovo, HP, Dell)
Printer (Fuji xerox, Canon)
Firewall (Fortigate, Sophos...)

Software

Microsoft Windows Server 2008/2012/2016
Microsoft Windows 7/8/10
Microsoft Office 2010/2013/2016/365
Antivirus (Kaspersky, Symantec, Trend Micro...)
Backup & Recovery (Veritas, Nova...)

Service

Network cabling
IT Maintenance
Domain & Email systems
Cloud service
Virtual system

TRAINING CENTER

Demand on training to utilize CAD/CAM/CAE/PLM software is now increasing in Vietnam. We are a long time experienced Education Partner Program (EPP) for Dassault Systèmes products such as 3DEXPERIENCE, CATIA V5, CATIA V6, ENOVIA, SIMULIA, DELMIA and 3DVIA. We have received training certificates from Dassault Systèmes and become unique organization in Vietnam that was officially authorized by Dassault Systèmes to organize CATIA examinations and issue CATIA certifications. Our qualified and certified engineers with Dassault Systèmes original training materials will give the best training course to you on all products.

Besides this, we also give training on CADmeister for mold & die design, simulation and NC machining solution, CAM-TOOL and Mastercam for machining on CNC machine, CADdoctor for CAD data translator and JMAG Design for magnetic simulation on the electric motor, transformer and induction applications.

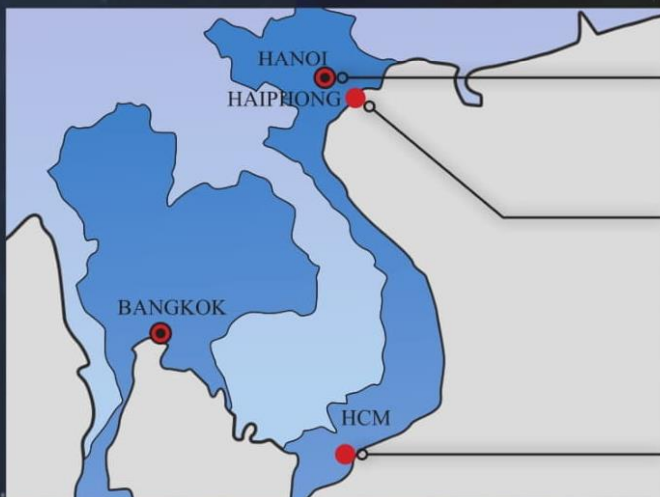

History of New System Vietnam Co., Ltd.

2002 December:	Establishment of New System Vietnam Co., Ltd. (NSV), A joint venture between New System Holding (NSH, Thailand) and FPT (Vietnam).
2004 March:	Open Ho Chi Minh office.
2006 May:	Open Haiphong office.
2008 December:	ARGO GRAPHICS Inc. joined as shareholder.
2012 August:	NSH acquired share owned by FPT.
2013 August:	Changed main shareholder to New System Service (NSS) from NSH.
2015 February:	Become a member of ARGO GRAPHICS Inc.

About New System Vietnam Co., Ltd.

As closely cooperation with various hi-end hardware vendor and providing various famous CAD/CAM/CAE/PLM applications. We are the Leading Solution Provider for CAD/CAM/CAE/PLM applications and Total System Integration Services in Vietnam. With more than 16 year-experiences in such market and field. We are pleased to bring the best solution in all industrial sectors including governmental organizations, helping approximately 250 customers nationwide to improve their operations, drive their growth and quickly adapt to change in technology demands. With the target "Your benefit - Our passion", NSV has been obtaining trust from various customers because of NSV's professional technical support team and excellent after sales service. Thanks for NSV's quality of service, which we have been obtaining from the top of the large manufacturing companies.
