New System Vietnam
COMPANY PROFILE

www.newsystemvietnam.com

NSV
NEW SYSTEM VIETNAM CO., LTD.

About our
COMPANY

We are a *Gold Partner* and the official software distributor of *Dassault Systèmes*. Our purpose is to provide *Engineering Solution* from design, simulation to PLM for all industries in Vietnam.

At the same time, NSV is proud to be *one of the leading distributors in Cyber Security Solution* in Vietnam.

With a team of expert engineers with strong technical background and many years of experience, NSV wants to bring sustainable values and outstanding services to customers nationwide.

Mr. Tomoyasu Kita - General Director

NSV
NEW SYSTEM VIETNAM CO., LTD.

OUR HISTORY

12/2002

New System Vietnam Co., Ltd. (NSV) was established on the basis of a joint venture between **New System Holding (NSH - Thailand) and FPT Corporation (Vietnam).**

08/2012

New System Holding (NSH) acquired all shares owned by FPT.

08/2013

**New System Service (NSS) under NSH** becomes the main shareholder of the company.

02/2015

ARGO GRAPHICS Inc. acquired **NSS and NSV,** becoming the main shareholder of the company.

01/2022

ARGO GRAPHICS Inc. become 100% shareholder of the company.

NSV
NEW SYSTEM VIETNAM CO., LTD.

MISSION

At New System Vietnam, we have a mission:

"To create future of Vietnam with digital solutions"

OUR ENGINEERING APPLICATION

01 3D DESIGN - CAD

CATIA

CADdoctor®

CADmeister®

02 MACHINING - CAM

CAM-TOOL
CAD/CAM System for Molds & Dies

DELMIA

CGTech.co.in
VERICUT®

03 SIMULATION - CAE

SIMULIA

JMAG®

ABAQUS

04 PRODUCT LIFE CYCLE - PLM

3DEXPERIENCE®

ENOVIA

NSV
NEW SYSTEM VIETNAM CO., LTD.

ENGINEERING SOLUTIONS
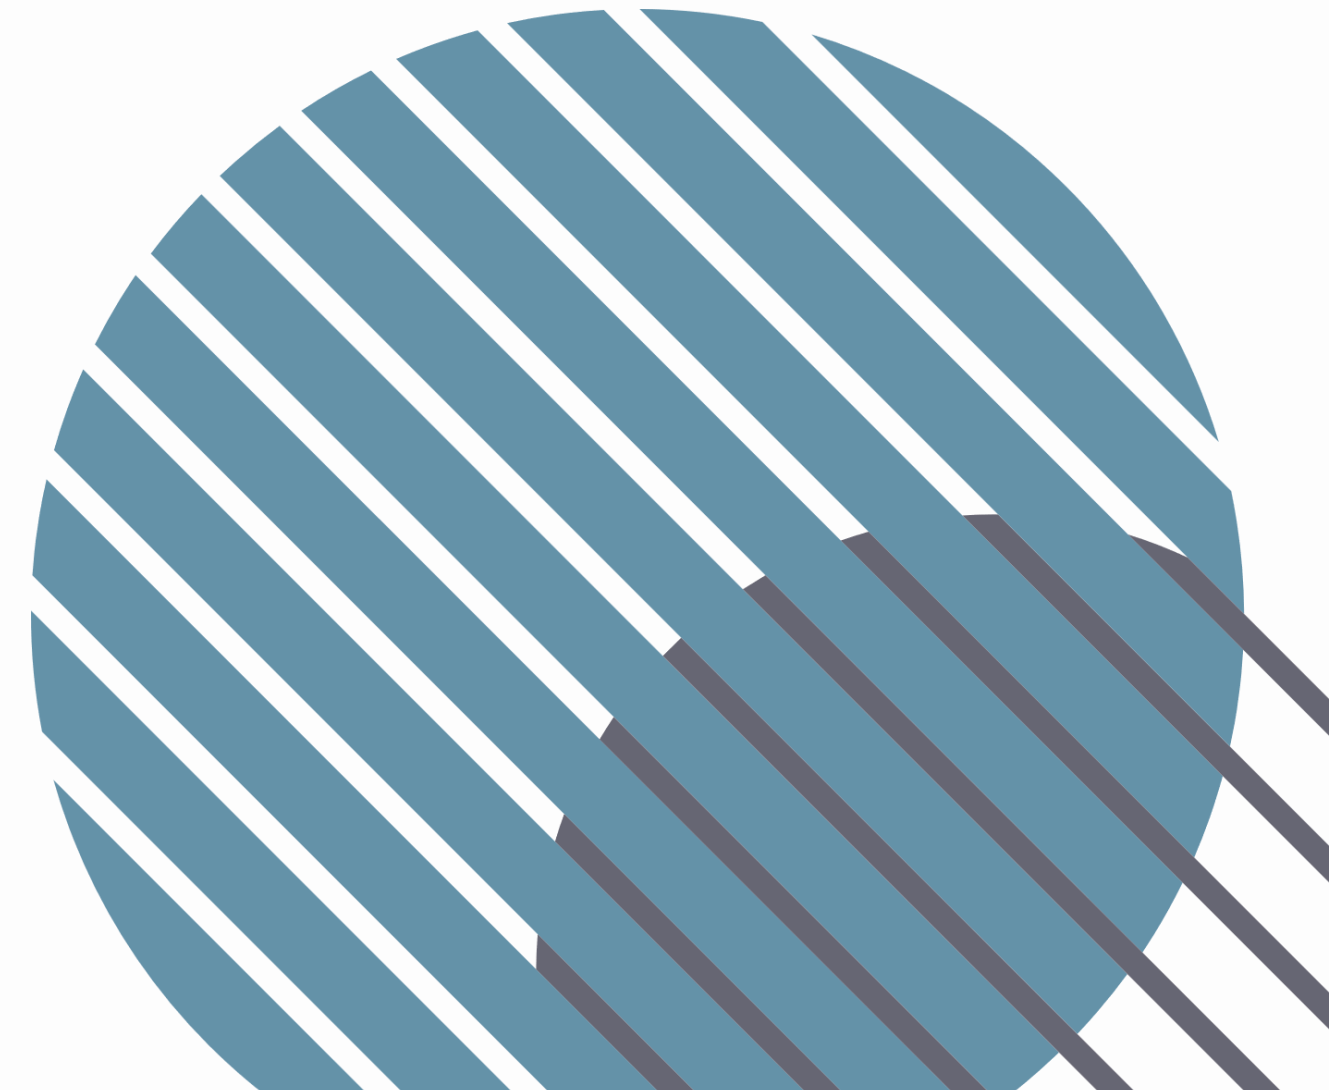

3D DESIGN - CAD Solutions

3S CATIA

CATIA is the World's Leading Solution for Product Design and Experience. It is used by leading organizations in multiple industries to develop the products we see and use in our everyday lives.

CADmeister

CADmeister is a widely used high-performance software in Japan, designed and developed with advanced technologies to support specific tasks in manufacturing such as CAD, CAM, PRESS, MOLD.

CADdoctor®

CADdoctor is the ultimate tool to maximize and accelerate your 3D data. It goes beyond CAD translation to provide geometry error detection, healing, simplification, and enhance your data for downstream processing.

NSV
NEW SYSTEM VIETNAM CO., LTD.

ENGINEERING SOLUTIONS

MACHINING - CAM Solutions

CAM-TOOL
CAD/CAM System for Molds & Dies

CAM-TOOL is an Elite CAD/CAM system of C&G System Inc., a Japanese corporation, that addresses the needs of the Manufacturing Tooling Industry.

CGTECH.co.in VERICUT

VERICUT is a product of CGTech, a software company located in USA.
This software has become the industry standard for simulating CNC machining in order to detect errors, potential collisions, or areas of inefficiency.

3DS DELMIA

DELMIA is an integral part of the Dassault System 3DEXPERIENCE platform, it is the connection between the virtual and real worlds.

It's often referred to as the manufacturing arm of the 3DEXPERIENCE platform.

DELMIA provides solutions to leverage the virtual world of modeling and simulation with the real world of operations to provide a complete solution to value network stakeholders: From suppliers, to manufacturers, to logistics and transportation providers, to service operators and work forces.

DELMIA is an acronym for Digital Enterprise Lean Manufacturing Interactive Application.

NSV
NEW SYSTEM VIETNAM CO., LTD.

ENGINEERING SOLUTIONS

SIMULATION – CAE Solutions

SIMULIA delivers realistic simulation applications that enable users to reveal the world we live in.

SIMULIA accelerates the process of evaluating the performance, reliability and safety of materials and products before committing to physical prototypes.
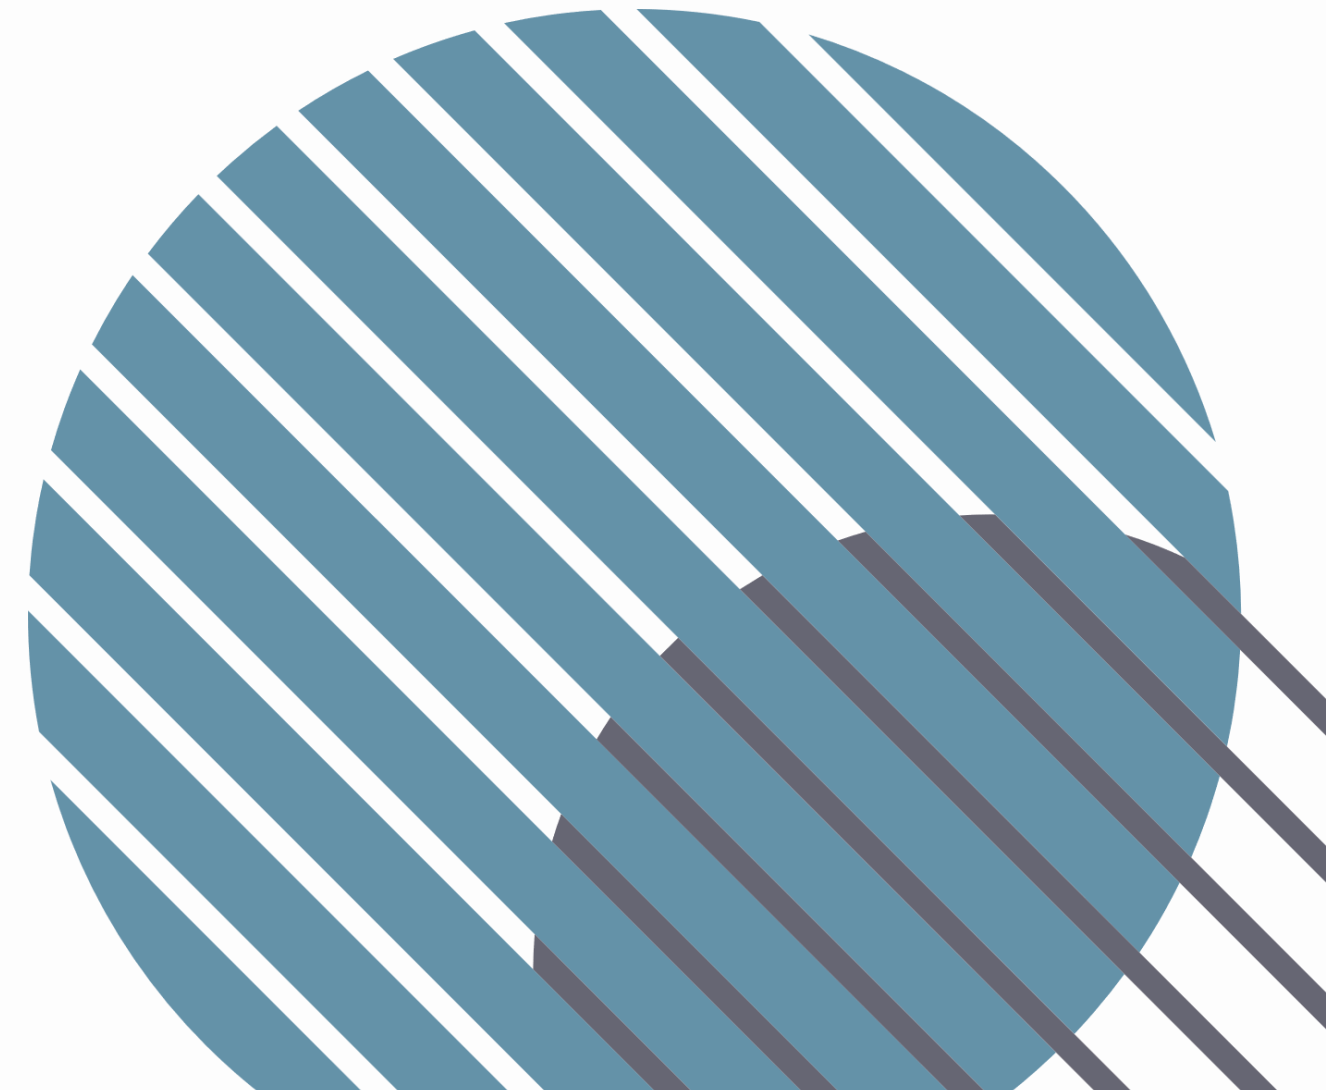

Abaqus is the world's technology-leading suite of finite element analysis software developed by Dassault Systèmes. It offers powerful and complete solutions for both routine and sophisticated engineering problems covering a vast spectrum of industrial applications.

JMAG is simulation software for electric device design and development.

It accurately models the complex electromagnetic phenomena in a wide range of equipment.

ENGINEERING SOLUTIONS

PRODUCT LIFE CYCLE - PLM

Solutions

3DEXPERIENCE

The 3DEXPERIENCE platform is a collaborative environment that empowers businesses to innovate in entirely new ways. It provides organizations a holistic, real-time view of their business activity and ecosystem in a single environment. It securely connects individuals, teams, departments and external collaborators working together to transform ideas into innovative products, services and experiences.

3DEXPERIENCE on the cloud

3DEXPERIENCE on the cloud provides you with a complete suite of industry-leading solutions which gives you everything you'll need to bring your idea to reality, bring together all aspects of your business on a single **cloud-based platform**.

DS ENOVIA

3DEXPERIENCE ENOVIA is the **Product Lifecycle Management (PLM)** software that enables your innovators to benefit from the true rewards of collaboration. Easy to acquire, quick to learn and effortless to master, ENOVIA is reliable and robust enough to manage even the most sensitive and mission-critical data.

ENOVIA SMARTEAM

ENOVIA SmarTeam is a legacy **Product Data Management (PDM)** application for engineering departments and small to medium sized companies. SmarTeam is for those with a need for design data management and have less-complex products and product lines that require single-discipline or single-site collaboration.

OUR CYBERSECURITY APPLICATION

01 Endpoint Security - EPP & EDR

CYLANCE PROTECT

SECURITY DOCTOR

TREND MICRO | APEX ONE

Trend Micro vision one

02 Human Measures

CYAS™ | Cyber Attack Simulator

03 Data Loss Prevention - DLP

Obbligato

04 Vulnerability Assessment

Platform & Web Diagnostic

NSV
NEW SYSTEM VIETNAM CO., LTD.

CYBER SECURITY SOLUTIONS

Endpoint Security

EPP & EDR Solutions

CylancePROTECT® is an AI-based Endpoint Protection Platform (EPP) that blocks cyberattacks and provides controls for safeguarding against sophisticated threats. It is the next-gen antivirus utilizing AI engine detect and prevent unknown malware by characteristic point extraction

Trend Micro Apex One™ provides antivirus and malware detection, and endpoint visibility. The product suite can be extended with associated applications that cover mobile endpoint protection, endpoint encryption, as well as network and server vulnerability protection.

Security Doctor is a new generation EDR solution that can monitor user behavior and system events. Software can be seen as a black box that stores all computer activities to take further investigation and diagnostics to detect attack risks.

Trend Micro Vision One is a threat defense platform that includes: Advanced Extensible Detection and Response (XDR) capabilities to collect and correlate deep operational data across multiple layers — email, endpoints, server and network.

NEW SYSTEM VIETNAM CO., LTD.

CYBER SECURITY SOLUTIONS

Data Loss Prevention - DLP

Human Measures

Vulnerability Assessment

Obbligato

DLP or data loss prevention is a solution to prevent the loss of important business data information. NSV is providing a DLP solution - **Obbligato IV** which could help business: Categorize, security and control data.

CYAS™ | Cyber Attack Simulator

CYAS is a solution that checks the user's security awareness by sending mock phishing email:

- Compose and send fake phishing emails
- Find out users with low awareness of cyber security

## Platform & Web Diagnostic

Vulnerability Diagnostic is the process of identifying, quantifying, and prioritizing vulnerabilities in an organization's IT systems. Early detection of vulnerabilities in the system will help businesses prevent cyber attacks or minimize damage when attacked by hackers.

NEW SYSTEM VIETNAM CO., LTD.

OUR SERVICES

01 CAD/CAM/CAE/PLM Training Center

At NSV, a certified training center of Dassault Systèmes solutions, our courses follow a tailored learning path based on specific profiles within a company. Whether it's CATIA, ENOVIA, SIMULIA, 3DEXPERIENCE® Platform, there are many learning paths to suit you.

02 Security Consulting

NSV provides cybersecurity consulting services. We will check and evaluate your network, endpoints, and servers to understand the level of security. From that assessment, NSV will make recommendations to improve the security level of customers' system.

03 Dassault Systèmes Certification

After each training course of NSV, participants can take the certification exam. If fulfilled requirements of the test, they will be granted a certificate of proficiency in the corresponding software from Dassault Systèmes.

04 System Integration & IT Maintenance

NSV will advise and propose the optimal IT system for business, based on the actual needs of each customer. After that, NSV's experienced expert and engineers will support customers to implement the system, following the agreed plan. We also provide regular, periodic (monthly) checking for the system of network, servers, and clients.
